General school information

This school's uniqueness extends beyond the classroom. Sports at school not only develop physical well-being but also confidence, teamwork and leadership skills. There are also special sports schools that allow young athletes to improve their skills. In addition to sports, school students have the opportunity to participate in extensive artistic programs such as theatre, dance, and music. The faculty at school strives to cultivate a positive attitude among their students.

Campus

This school is located in the country, yet Madrid is easily accessible by public transportation. In its 1.000.000 m², the school boasts buildings which won the International Architecture Award, excellent athletic centers and fields as well as beautiful gardens.

Languages

In secondary education, all subjects are taught in Spanish, except for English language classes. Cambridge examinations are available. French is taught as a second language.

Sport facilities

Sports complex, outdoor and indoor swimming pools, gym. Facilities available for over 12 sports. Sports tuition is also available for all sports.

School facilities

Libraries, music school (with various studies), multimedia classrooms, computer laboratory, artistic activity classrooms (theatre group, Spanish dance, ballet, participation in festivals and contests), educational farm, astronomy observatory, assembly-hall, lunch area (self-service carefully balanced menu).

Accommodation

There are two single-sex residence buildings. Each residence building houses approximately 10 bedrooms for 2-5 students. All bedrooms are "en-suite". Common rooms are equipped with TV and coffee/tea facilities.
